(k) public museums, art galleries, zoos, and observatories that are not operated for gain or profit;

(l) motor vehicles, land, fixtures, buildings, and improvements owned by a cooperative association or nonprofit corporation organized to furnish potable water to its members or customers for uses other than the irrigation of agricultural land;

(m) the right of entry that is a property right reserved in land or received by mesne conveyance (exclusive of leasehold interests), devise, or succession to enter land with a surface title that is held by another to explore, prospect, or dig for oil, gas, coal, or minerals;

(n) (i) property that is owned and used by a corporation or association organized and operated exclusively for the care of persons with developmental disabilities, persons with mental illness, or persons with physical or mental impairments that constitute or result in substantial impediments to employment and that is not operated for gain or profit; and

(o) property owned by a nonprofit corporation that is organized to provide facilities primarily for training and practice for or competition in international sports and athletic events and that is not held or used for private or corporate gain or profit. For purposes of this subsection (1)(o), "nonprofit corporation" means an organization that is exempt from taxation under section 501(c) of the Internal Revenue Code and incorporated and admitted under the Montana Nonprofit Corporation

Act.

(2) (a) (i) For the purposes of tribal property under subsection (1)(a)(viii), the property subject to exemption may not be:

(A) operated for gain or profit;

(B) held under contract to operate, lease, or sell by a taxable individual;

(C) used or possessed exclusively by a taxable individual or entity; or

(D) held by a tribal corporation except for educational purposes as provided in subsection (1)(f).

(A) set aside by tribal resolution and designated as park land, not to exceed 15 acres, or be designated as a recreational facility; and

(B) open to the general public.

(b) For the purposes of subsection (1)(b), the term "clergy" means, as recognized under the federal Internal Revenue Code:

(ii) a commissioned or licensed minister of a church or church denomination that ordains ministers if the person has the authority to perform substantially all the religious duties of the church or denomination;

(iii) a member of a religious order who has taken a vow of poverty; or

(iv) a Christian Science practitioner.

(c) For the purposes of subsection (1)(i):

(i) the term "institutions of purely public charity" includes any organization that meets the following requirements:

(A) The organization offers its charitable goods or services to persons without regard to race, religion, creed, or gender and qualifies as a tax-exempt organization under the provisions of section 501(c)(3), Internal Revenue Code, as amended.

(B) The organization accomplishes its activities through absolute gratuity or grants. However, the organization may solicit or raise funds by the sale of merchandise, memberships, or tickets to public performances or entertainment or by other similar types of fundraising activities.

(ii) agricultural property owned by a purely public charity is not exempt if the agricultural property is used by the charity to produce unrelated business taxable income as that term is defined in section 512 of the Internal Revenue Code, 26 U.S.C. 512. (iii) up to 15 acres of property owned by a purely public charity is exempt at the time of its purchase even if the property must be improved before it can directly be used for its intended charitable purpose. If the property is not directly used for the charitable purpose within 8 years of receiving an exemption under this section or if the property is sold or transferred before it entered direct charitable use, the exemption is revoked and the property is taxable. In addition to taxes due for the first year that the property becomes taxable, the owner of the property shall pay an amount equal to the amount of the tax due that year times the number of years that the property was tax-exempt under this section. The amount due is a lien upon the property and when collected must be distributed by the treasurer to funds and accounts in the same ratio as property tax collected on the property is distributed. At the time the exemption is granted, the department shall file a notice with the clerk and recorder in the county in which the property is located. The notice must indicate that an exemption pursuant to this section has been granted. The notice must describe the penalty for default under this section and must specify that a default under this section will create a lien on the property by operation of law. The notice must be on a form prescribed by the department.

(iv) not more than 160 acres may be exempted by a purely public charity under any exemption originally applied for after December 31, 2004. An application for exemption under this section must contain a legal description of the property for which the exemption is requested.

(d) For the purposes of subsection (1)(k), the term "public museums, art galleries, zoos, and observatories" means governmental entities or nonprofit organizations whose principal purpose is to hold property for public display or for use as a museum, art gallery, zoo, or observatory. The exempt property includes all real and personal property owned by the public museum, art gallery, zoo, or observatory that is reasonably necessary for use in connection with the public display or observatory use. Unless the property is leased for a profit to a governmental entity or nonprofit organization by an individual or for-profit organization, real and personal property owned by other persons is exempt if it is:

(i) actually used by the governmental entity or nonprofit organization as a part of its public display;

(ii) held for future display; or

(iii) used to house or store a public display.

(3) If a nonprofit health care facility subject to the charity care requirements of [section 8] fails to meet the requirements of that section, the property owned by the facility is not exempt from taxation for the tax year in which the facility failed to meet the requirements of [section 8]."

(4) A taxpayer who, in determining federal adjusted gross income, has reduced the taxpayer's business deductions by an amount for wages and salaries for which a federal tax credit was elected under sections 38 and 51(a) of the Internal Revenue Code, 26 U.S.C. 38 and 51(a), is allowed to deduct the amount of the wages and salaries paid regardless of the credit taken. The deduction must be made in the year that the wages and salaries were used to compute the credit. In the case of a partnership or small business corporation, the deduction must be made to determine the amount of income or loss of the partnership or small business corporation.

(5) Married taxpayers filing a joint federal return who are required to include part of their social security benefits or part of their tier 1 railroad retirement benefits in federal adjusted gross income may split the federal base used in calculation of federal taxable social security benefits or federal taxable tier 1 railroad retirement benefits when they file separate Montana income tax returns. The federal base must be split equally on the Montana return.

(6) Married taxpayers filing a joint federal return who are

allowed a capital loss deduction under section 1211 of the Internal Revenue Code, 26 U.S.C. 1211, and who file separate Montana income tax returns may claim the same amount of the capital loss deduction that is allowed on the federal return. If the allowable capital loss is clearly attributable to one spouse, the loss must be shown on that spouse's return; otherwise, the loss must be split equally on each return.

(7) In the case of passive and rental income losses, married taxpayers filing a joint federal return and who file separate Montana income tax returns are not required to recompute allowable passive losses according to the federal passive activity rules for married taxpayers filing separately under section 469 of the Internal Revenue Code, 26 U.S.C. 469. If the allowable passive loss is clearly attributable to one spouse, the loss must be shown on that spouse's return; otherwise, the loss must be split equally on each return.

(8) Married taxpayers filing a joint federal return in which one or both of the taxpayers are allowed a deduction for an individual retirement contribution under section 219 of the Internal Revenue Code, 26 U.S.C. 219, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction must be attributed to the spouse who made the contribution.

(9) (a) Married taxpayers filing a joint federal return who are allowed a deduction for interest paid for a qualified education loan under section 221 of the Internal Revenue Code, 26 U.S.C. 221, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction may be split equally on each return or in proportion to each taxpayer's share of federal adjusted gross income.

(b) Married taxpayers filing a joint federal return who are allowed a deduction for qualified tuition and related expenses under section 222 of the Internal Revenue Code, 26 U.S.C. 222, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction may be split equally on each return or in proportion to each taxpayer's share of federal adjusted gross income.

(10) A taxpayer receiving retirement disability benefits who has not attained 65 years of age by the end of the tax year and who has retired as permanently and totally disabled may exclude from adjusted gross income up to \$100 a week received as wages or payments in lieu of wages for a period during which the employee is absent from work due to the disability. If the adjusted gross income before this exclusion exceeds \$15,000, the excess reduces the exclusion by an equal amount. This limitation affects the amount of exclusion, but not the taxpayer's eligibility for the exclusion. If eligible, married individuals shall apply the exclusion separately, but the limitation for income exceeding \$15,000 is determined with respect to the spouses on their

combined adjusted gross income. For the purpose of this subsection, "permanently and totally disabled" means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months.

(11) An individual who contributes to one or more accounts established under the Montana family education savings program may reduce adjusted gross income by the lesser of \$3,000 or the amount of the contribution. In the case of married taxpayers, each spouse is entitled to a reduction, not in excess of \$3,000, for the spouses' contributions to the accounts. Spouses may jointly elect to treat half of the total contributions made by the spouses as being made by each spouse. The reduction in adjusted gross income under this subsection applies only with respect to contributions to an account of which the account owner, as defined in 15-62-103, is the taxpayer, the taxpayer's spouse, or the taxpayer's child or stepchild if the taxpayer's child or stepchild is a Montana resident. The provisions of subsection (1)(e) do not apply with respect to withdrawals of contributions that reduced adjusted gross income.

(12) (a) A taxpayer may exclude the amount of the loan payment received pursuant to subsection (12)(a)(iv), not to exceed \$5,000, from the taxpayer's adjusted gross income if the taxpayer:

(i) is a health care professional licensed in Montana as provided in Title 37;

(ii) is serving a significant portion of a designated geographic area, special population, or facility population in a federally designated health professional shortage area, a medically underserved area or population, or a federal nursing shortage county as determined by the secretary of health and human services or by the governor;

(iii) has had a student loan incurred as a result of health-related education; and

(iv) has received a loan payment during the tax year made on the taxpayer's behalf by a loan repayment program described in subsection (12)(b) as an incentive to practice in Montana.

(b) For the purposes of subsection (12)(a), a loan repayment program includes a federal, state, or qualified private program. A qualified private loan repayment program includes a licensed health care facility, as defined in 50-5-101, that makes student loan payments on behalf of the person who is employed by the facility as a licensed health care professional.

(13) Notwithstanding the provisions of subsection (1), adjusted gross income does not include 40% of capital gains on the sale or exchange of capital assets before December 31, 1986, as capital gains are determined under subchapter P. of Chapter 1 of the Internal Revenue Code as it read on December 31, 1986.

(14) By November 1 of each year, the department shall multiply the amount of pension and annuity income contained in subsection (2)(c)(i) and the federal adjusted gross income

amounts in subsection (2)(c)(ii) by the inflation factor for that tax year, but using the year 2009 consumer price index, and rounding the results to the nearest \$10. The resulting amounts are effective for that tax year and must be used as the basis for the exemption determined under subsection (2)(c). (Subsection (2)(f) terminates on occurrence of contingency--sec. 3, Ch. 634, L. 1983; subsection (2)(o) terminates on occurrence of contingency--sec. 9, Ch. 262, L. 2001.)"

(3) The association may impose a preexisting condition exclusion as provided in 33-22-1516 with respect to a TAA-eligible individual's association portability plan coverage if that individual does not meet the requirements defining a qualified TAA-eligible individual.

(4) Not less than 88% of the association plan and the association portability plan premiums paid to the lead carrier may be used to pay claims and not more than 12% may be used for payment of the lead carrier's direct and indirect expenses as specified in 33-22-1514.

(5) Any income in excess of the costs incurred by the association in providing reinsurance or administrative services must be held at interest and used by the association to:
